github.com/Adit129

Passionate and versatile developer proficient in Java, HTML, CSS, Bootstrap, React, Node.js, Express, MySQL, and MongoDB. Successfully completed a 6-month Java-focused internship and an additional 2-month stint in MERN stack development. Currently excelling in a Full Stack Developer Internship, leading a team in both frontend and backend development. Expertise includes version control using Git and GitHub, and proficient use of databases. Beyond web development, my commitment to continuous learning positions me as an ideal candidate for staying ahead in the tech landscape.

PERSONAL PROJECTS

Vehicle Renting Management System

- Designed and developed a Vehicle Renting Management System in Java using NetBeans, integrating MySQL for streamlined vehicle management. Implemented key features for registration, status updates and rental agreements, with intuitive search and filtering functionalities for easy vehicle selection. Conducted rigorous testing and collaborated effectively with the project team.

Online Examination System

- Designed and implemented a solo project – an Online Examination System using J2EE technologies. Developed an intuitive web dashboard for efficient exam management and a user-friendly interface for student registration and real-time results. Utilized MySQL for secure and scalable data management.

Shikshasaathi SMS Website (02/2024 - Present)

- Actively contributing to an ongoing MERN stack project. I specialize in creating user-friendly frontend interfaces and developing robust backend solutions. Implemented a streamlined MVC architecture for enhanced project efficiency. As a team leader, I foster collaboration and communication, leading to the successful achievement of key project milestones.

Minor Projects

- StopWatch Web Application
- Tic-Tac-Toe Web Application
- Weather App

ACHIEVEMENTS

Completed J2SE and J2EE Internship from Analyze InfoTech (02/2023 - 07/2023)

Actively contributed to a real-world project, enhancing technical skills and collaborating in a professional setting. Engaged in practical learning, growth.
